

RINGCENTRAL AI CONVERSATION EXPERT (ACE)

The AI conversation expert that turns voice data into insights

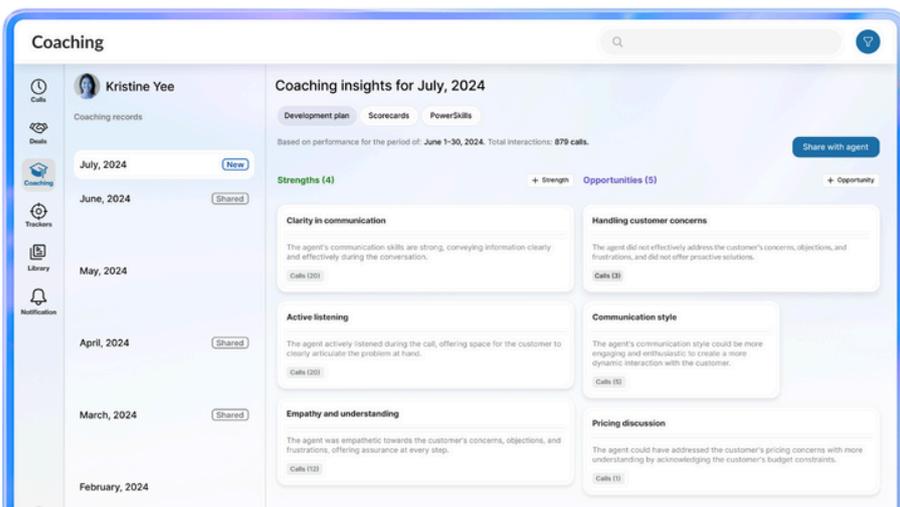

AI CONVERSATION EXPERT

Powered by RingCentral, Delivered by Momentum

Leveraging RingCentral technology and Momentum expertise, AI Conversation Expert elevates every business conversation.

AI Conversation Expert (ACE) is RingCentral’s AI-powered conversation intelligence solution that captures, organizes, and analyzes customer interactions to drive better outcomes across sales, service, and compliance teams. Built natively on RingCentral’s trusted communications platform, it combines real-time insights, enterprise-grade security, and comprehensive AI capabilities to improve productivity, decision-making, and customer engagement.

KEY BENEFITS

Capture and summarize calls and meetings to surface insights, next steps, and sentiment.

Support effective coaching with AI-driven scorecards and performance insights.

Convert conversation data into actionable intelligence for better decisions.

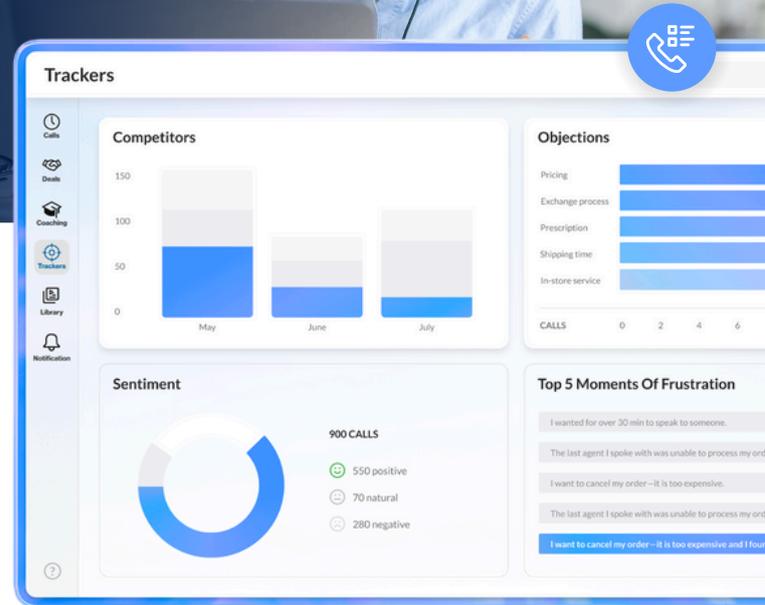

Rely on an enterprise-grade platform with built-in security, compliance, and 99.999% uptime.

Sync CRMs and systems through seamless integrations that reduce manual work.

Intelligent Trackers

AI-powered Trackers reveal what matters most in every conversation, from objections and competitors to sentiment and customer frustration. Gain instant visibility into trends and risks, take action faster, and consistently deliver better customer experiences.

CUSTOMER EXPERIENCE

The business impact

AI is now essential to modern service strategies, enabling organizations to stay competitive in a rapidly evolving market. When embedded into business communications, AI turns conversations into actionable intelligence, helping teams respond faster and engage more proactively at scale.

Deliver faster, more consistent service

AI-powered conversation intelligence supports agents with real-time insights, automated summaries, and reduced manual work. This allows teams to resolve issues more efficiently, maintain consistency across interactions, and focus on delivering value instead of administration.

Personalize interactions at scale effortlessly

By analyzing conversation context, sentiment, and customer behavior in real time, AI enables more relevant and personalized engagement across every interaction. Teams gain deeper understanding of needs and intent, allowing them to respond proactively and build stronger, longer-lasting relationships.

Maximizing the value of RingCentral ACE

Technology alone does not drive transformation, expertise, adoption, and strategic alignment do. Momentum enhances the value of RingCentral and ACE by combining industry-leading technology with deep advisory expertise, local presence, and a proven methodology for delivering measurable business outcomes.

WHY MOMENTUM?

As a trusted RingCentral partner, Momentum helps organizations move beyond deployment to fully realize the power of AI-driven communications. We ensure RingCentral and ACE are not just implemented, but embedded into daily workflows in a way that accelerates adoption, improves performance, and delivers long-term value.

Expert Implementation and Adoption

Successful AI initiatives depend on more than configuration. Momentum provides structured implementation, onboarding, and enablement services that ensure fast time-to-value and high user adoption. From integrations and data governance to tracker configuration and coaching workflows, we help organizations operationalize ACE with confidence.

Continuous Optimization and Strategic Guidance

Momentum acts as a long-term partner, not a one-time provider. As customer needs evolve and AI capabilities expand, we continuously help optimize RingCentral and ACE environments. This includes refining trackers, enhancing reporting, supporting new use cases, and aligning AI insights with changing business priorities.

Local Expertise, Global Platform

With Momentum, customers benefit from local expertise backed by a globally trusted RingCentral platform. We provide responsive support, regional understanding, and hands-on guidance while leveraging RingCentral's secure, scalable, and reliable communications infrastructure.

Find out why Momentum matters

RingCentral and AI Conversation Expert provide the technology foundation. Momentum ensures it delivers results. Together, we help organizations transform conversations into intelligence, intelligence into action, and action into lasting business impact.
